

## MASTER OF SCIENCE in SUPPLY CHAIN MANAGEMENT PROGRAMME

The Logistics Institute – Asia Pacific at National University of Singapore, in conjunction with the Department of Decision Sciences, School of Business, and the Department of Industrial & Systems Engineering, offers the Master of Science in Supply Chain Management (MSc(SCM)), a tailor-made programme for mid-career professionals who are keen to advance their career in logistics and supply chain management. This award-winning programme will provide you with

- Comprehensive understanding of supply chain management that covers planning, design and operations
- Exposure to current issues in the wider context of logistics and supply chain management in Asia
- Opportunities for in-depth application of decision and analytical methodologies to solve real industry problems

### Highlights of the MSc(SCM) Programme

- Top-notch faculty experts from NUS Business School and Faculty of Engineering
- Insights from industry partners of The Logistics Institute – Asia Pacific
- A two-week Summer School at partner universities in Germany and Austria
- Industry site tours
- Strong alumni network - The Circle of Logisticians
